Gaza Aid Delivery

29th July 2025

Assalaamu Alaikum wa Rahmatullahi wa Barakatuh,

We understand that many of you are deeply concerned and heartbroken by the ongoing humanitarian crisis in Gaza. The questions being raised are not only valid but necessary. They come from a place of compassion and responsibility, and we thank you for holding us, and others, to account.

Delivering aid in Gaza right now is extraordinarily difficult and dangerous. The situation on the ground is constantly shifting, and every step, procurement to distribution. This requires navigating intense political, logistical, and safety challenges.

Despite this, AWB has been operating in Gaza since 2012 and has specialised in emergency response since our establishment in 2013. **Alhamdulillah, by the will of Allah and the unwavering support of our donors, our feeding campaign has never stopped.**

We are currently delivering over **21,000 hot meals every day** to displaced families. These meals are:

- Cooked fresh inside Gaza by our trusted kitchen teams,
- Distributed by local staff and partners who are risking their lives each day to serve their people.

Our food items are sourced locally from:

- Local farms and producers inside Gaza,
- Cold storage facilities and existing stocks within the region,
- And when possible, commercial trucks entering through tightly controlled crossings—but these are limited, irregular, and far below the scale needed.

This fragmented and insufficient entry of aid is also why food prices continue to rise sharply, making it even harder for people to access essentials.

Yet, despite these immense barriers, we our team on the ground are working tirelessly to help those affected.

We regularly share video updates on our [social media platforms](#) to show you exactly where your support is going. We believe in full transparency, especially in times like these.

Your donations are not sitting idle. They are providing hot meals, medical supplies, and vital support.

We humbly ask that you continue to keep the people of Gaza in your duas and continue supporting trusted charities like ours who are on the ground delivering relief every single day.

Sincerely,

Aid Without Borders Team
